## ACIDIC BASIC CLEANERS

### SPONTAN SUPER

RK listed

**Art. No. 600.762** 10 L canister  
**Art. No. 600.763** 6 x 1 L bottle unit

- acidic basic cleaner and care product
- high performing product to use for removal of lime scale, corrosion stains, urine deposits and any other deposits on acid-resistant surfaces, pool areas, sanitary areas and kitchen areas
- based on phosphoric acid with integrated corrosion inhibitor
- not suitable for acid-sensitive surface such as toilet lids, enamel, marble and other calcareous material
- free of hydrochloride acids

#### APPLICATION RANGE:

Especially suitable for basic cleaning all acid proof materials in wet areas/wet cells. Powerful cleaner for final cleaning after building

constructions, removing cement residues and deposits on stainless steel surfaces.

**Not** applicable on acid sensitive surfaces.

#### INSTRUCTIONS FOR USE AND DOSAGE:

For removal of strong lime deposits and urine stone. Spontan Super may be used for basic cleaning - and for daily intermediary cleaning - such in pool areas with higher degree of water hardness. Always pre-water surfaces well before cleaning! **Basic cleaning:** Concentrated or 1:10 diluted (800 ml on 8 l water) on surfaces. Allow to penetrate for several minutes. Repeat if necessary. **Intermediary cleaning:** Dilute 1:50 (160 ml on 8 l water) - 1:100 (80 ml on 8 l water). After cleaning - add plenty of fresh water onto surface to remove remains - thus avoiding damage on surfaces from remains of acidic agents.

Prior to use - always test on a small area.

Always follow the instructions of suppliers of sanitary installations.

If improperly applied - and for claims resulting from such improper handling - there will be no legal claims accepted.

#### TECHNICAL DATA:

Form: ..... clear, red liquid  
Odour: ..... fresh, slightly stinging  
Viscosity: ..... low  
Density: ..... 1160 g/L  
pH-value in delivery state: ..... 1

#### INGREDIENTS:

Below 5 %: ..... non-ionic surfactants  
Contains: ..... perfumes, ALPHA-ISOMETHYL IONONE  
Giscode: ..... GS 80  
Stability: ..... at least one year in original containers  
The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.

#### LABELLING:

**Danger**

**Contains Phosphoric acid.**

**Hazard statements:** H314: Causes severe skin burns and eye damage.

**Precautionary statements:** P102: Keep out of reach of children.

P280: Wear protective gloves/eye protection. P301+330+331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+361+353: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a POISON CENTER or doctor.

**TRANSPORT:** UN-No.: 1805 / Official transport designation: Phosphoric acid solution  
Class: 8 / Packing group: III / ADR
