

# Technical Data Sheet

## High Foam Heavy Duty

### International Article Number

101885 (15 x 7 cm)

### Product classification

Foam backed scourer

### Composition

Foam: 100 % Polyurethane  
 Abrasive: 20 % Polyester  
           35 % Binder  
           45 % Abrasive

### Technical data

	Typical value	Unit
Thickness	45	mm

### Product properties and product usage

- High performance, black abrasive scourer with easy grip foam backing
- Ideal for heaviest duty applications
- Trouble-free removal of strong incrustations
- Foam backing protects fingers and keeps the scourer flat for maximum contact with the cleaning surface

### Application:

- Wet and damp
- Precaution: Keep away from direct sunlight and exhaust of combustion engines
- Precaution: Please rinse off aggressive chemicals after use

### Washing recommendations

- It is recommended to rinse out the pad in warm water
- In case of machine washing:  
 mild washing process (reduced agitation); maximum washing temperature 60 °C;  
 avoid high alkalinity and strong bleaching activity (do not use chlorine bleach)

### Storage, transportation and disposal

Keep palletized products in a cold and dry place. Avoid exposure to direct sunlight. Product is not subject to transportation regulations for hazardous substances or chemicals. Disposal via landfill or incineration possible.

### Quality approvals / Compliance with international standards

This product is manufactured conforming to appropriate standards within FHCS Quality System.
