

Technical Data Sheet

Swep Duo HygienePlus Pro Mop (CC)

International article number

171620 (35 cm), 171427 (50 cm)

Product classification

Microfibre mop for pre-prepared floor cleaning (Swep system)

Fibre composition (50 cm mop)

67% Polyester, 33% Polypropylene

Technical data

	Typical value	Unit
Weight per 35 cm mop	98	g
Weight per 50 cm mop	131	g
Absorption capacity	350	%

Product properties and application

- Double sided microfibre mop for superior coverage, especially on structured floors
- Microfibre technology for optimum durability and cleaning performance without aggressive chemicals
- Made from microfibre cut pile material with embedded preservative silver phosphate glass to prevent growth of bacteria in the mop cut pile, combined with effective brush fibres for a high cleaning performance
- Up to 99.99% bacteria removal tested with P. aeruginosa & S. aureus on vinyl surfaces at a 3rd party lab
- Up to 99.9% virus removal tested with Bovine coronavirus on vinyl surfaces at a 3rd party lab
- Proven ergonomics in floor-mopping, measured and validated by 3rd party research in an ergonomics analysis
- No need for tumble drying after laundering process due to antibacterial properties, reduction of laundry costs
- Can be stored damp overnight after laundering process. Application 72- hour storage tests (external) after 1000 washes showing no bacteria growth
- Long product life cycle. Durability up to 1000 washes tested at internal lab with chemical-thermal disinfection at 60°C
- Ideal for use on all hard floor types; due to a unique pile structure, the mop is especially effective in picking up and collecting fine particles from uneven surfaces on a structured floor
- Very good chemical and temperature resistance
- With R/B/G/Y colour code tags for identification and individual adaptation to hygiene systems
- Use dry, damp or wet, also for floor disinfection with pre-prepared cleaning method (manual or washing machine preparation) for reduced chemical and water consumption. Please see separate instruction for pre-dosing the Swep mop

Washing recommendation

- Ideal conditions: 60°C, avoid high alkalinity and strong bleaching activity (do not use chlorine bleach), wash with similar colours
- Maximum washing temperature: 95°C

Storage, disposal and end-of life

Keep palletized products in a cold and dry place. Avoid exposure to direct sunlight. Product is not subject to transportation regulations for hazardous substances or chemicals. Disposal via landfill or incineration possible. Please respect local regulations.

Quality assurance / Compliance with international standards

This product is compliant to our internal quality standards and external regulations.
